"Rooted" is **Restless Leg Syndrome**'s third release, focusing on the Austrian DJ trio's Tyrolean roots.

The concept behind their joint-venture is quite simple: Take a specific genre of music, sample and flip it into danceable beats. On their last project, "Dabkeh", sounds from the Arabic world were the source of inspiration.

In producing "**Rooted**", the RLS boys made the effort to record traditional Tyrolean folk instruments – including accordion, harp, tuba, zither, and horns – to put them in a different context. Tradition and custom are also mirrored in **Lukas Goller**'s artwork for the record.

"Rooted" is **d.b.h**, **Chrisfader** and **Testa**'s own personal version of traditional Tyrolean sounds combined with progressive production, a mixture of laid-back beats and club bangers. Cowbells, jaw harps, "Schuplattler" and "Teufelsgeige" meet kicks, snares, synths and cuts.
